

## GREEN POLICY

VOC Port Authority is committed to sustainable port operations by minimizing environmental impact, improving energy efficiency, and promoting eco-friendly initiatives. This policy aligns with national and global environmental standards, ensuring a green and resilient maritime ecosystem.

We at VOCPA are committed to;

- Ensuring all our buildings align with green building standards.
- Promoting energy efficiency through energy audit and conservation.
- Consistently strive to adopt renewable energy to neutralise greenhousegas emissions.
- Conserving water by water audit and promotingretrofitting water-efficient fixtures, recycling, reuse and rainwater harvesting.
- Enhancing green cover by planting native vegetation and promoting green landscapes within thePort premises.
- Implementing innovative solid waste management strategies to minimize waste generation and promote recycling& re-use.
- Creating awareness among employees and stakeholders on sustainable building practices
- Regularly review and continuallyimproving our Green Policy to align with emerging global sustainability standards.

This **Green Policy** ensures VOC Port Authority remains a leader in sustainable maritime operations, supporting India's **Blue Economy** while reducing environmental impact.
