

Green Pledge

- I pledge to do my best to protect the Earth and its natural environment.
- I will adopt eco-friendly habits and minimize waste by using reusable cups, bottles, and utensils, and by choosing digital communication and documentation wherever possible.
- I will reuse and repurpose materials to extend their life and reduce consumption.
- I will actively participate in keeping my surroundings clean and free from pollution.
- I will reduce the amount of waste I generate by being mindful of my consumption.
- I will plant and nurture more trees to support biodiversity and combat climate change.
- I will conserve energy and water, and practice green good deeds in my daily life.
- I will raise awareness about climate change and the importance of reducing our carbon footprint.
- I will encourage others to adopt sustainable practices in their homes, communities, and workplaces.
- I will support policies, initiatives, and businesses that prioritize sustainability and environmental protection.
- I will implement rainwater harvesting systems in my building to conserve water resources.
- I will choose eco-friendly and biodegradable products to reduce harm to the planet.

Together, we can build a greener, healthier, and more sustainable world for future generations.
