TRADE NOTICE

Covering of Trucks Carrying Dry Bulk Cargo with Tarpaulin and Restriction on
Parking near Cargo Handling Areas - Reg

It is to inform all concerned that, in the interest of safety, environmental compliance, and operational efficiency, all trucks transporting dry bulk cargo to and from the port / terminal must be properly covered with tarpaulin to prevent spillage and dust emissions during transit. This directive is effective immediately.

Additionally, **No** two-wheelers or four-wheelers belonging to the Port Users are permitted near the cargo handling area. All such vehicles must be parked in the designated parking zones. Unauthorized parking in restricted areas leads to congestion, safety risks, and operational delays.

Non-compliance with the above instructions may result in:

- Denial of entry into the terminal premises
- Penalties or fines, as applicable
- Blacklisting of repeat offenders

All stakeholders are requested to ensure strict adherence to these guidelines for maintaining a safe, clean, and efficient operational environment.
