**TRADE NOTICE**

**Sub: Trade Notice - Rebate on Shifting Charges for Container Ships - Reg.**

It is informed that 50% rebate on shifting charges will be allowed for container ships requiring to shift between container terminals on the additional (second) shifting when they are shifted from a container berth to a non-container berth and back to the intended container berth since the same was not vacant initially, considering that the first shifting is free. However, in case container ships are shifted from a container berth to outer anchorage and back to the intended container berth due to non-availability of vacant berths initially, the applicability of concession on such shiftings will be decided on a case-to-case basis by the competent authority.

The concession is effective from 28.01.2025 for the period up to 31.03.2025.

Cargo interests are requested to avail of the facility towards enhancing volumes through additional ship calls.
